📍 Bangkok, Bangkok, Thailand 📁 toydee31 (LinkedIn)

PROFESSIONAL SUMMARY

ICT student at Rangsit University with a strong passion for UI/UX design and full-stack development. I am proficient in wireframing, prototyping, and both front-end and back-end technologies, with a growing interest in data analytics and AI-driven solutions. Published research co-author with hands-on experience in IoT systems, mobile app development, and user-centered design. Eager to contribute technical skills and creativity to a dynamic, innovative team.

EDUCATION

Bachelor of Information and Communications Technology

Rangsit University, Bangkok, Thailand | 2023 – Present

Bachelor of Arts, Russian Language (Specialized)

University of Foreign Language | 2016 – 2020

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, Java, Dart | React, Next.js, Vue.js, Node.js, Laravel, Flutter, HTML/CSS

Databases: MySQL, MariaDB, MongoDB, PhpMyAdmin

Tools & Platforms: Git/GitHub, Figma, VS Code, Android Studio, Eclipse

Other: Data Analysis (pre-intermediate), Networking (basic), UI/UX Design, API Integration

EXPERIENCE

Research Intern – IoT & Intelligent Systems | Rangsit University

Aug – Dec 2025

- Conducted research on IoT-based agent models for workplace situational awareness under Prof. Billel Arbaoui
- Designed and extended a temporal-causal, agent-based model integrating real-time IoT sensors (fire, gas, smoke)
- Implemented simulations using Python and NumPy to analyze cognitive state transitions
- Achieved up to 40% improvement in high-alert state accuracy over the baseline model
- Co-authored a peer-reviewed paper published in the Journal of Robotics and Control (JRC)

Basic Worker → General Manager | P & Y Palace Company Limited (Citiwide Logistics)

2018 – 2020

- Progressed from entry-level operations to general management, overseeing logistics coordination and team leadership
- Managed office administration, data records, and cross-functional communication with clients and stakeholders

PROJECTS

Golf Booking App – Flutter (Mobile & Web)

Tech Stack: Flutter, Dart, flutter_map, country_code_picker, image_picker, url_launcher

- Designed an intuitive tee time booking interface with GPS-based course map integration
- Implemented profile image upload, international phone formatting, and real-time navigation support
- Delivered a mobile first, branded UI with polished responsive design

RSU Executive Management App – Flutter (Mobile & Web)

Tech Stack: Flutter, Dart, SharedPreferences, HTTP, JSON, OpenWeatherMap API

- Built a cross-platform app for managing university executive profiles with login/signup authentication
- Integrated live weather and air pollution data via OpenWeatherMap API with tab-based navigation
- Applied modern UI principles including theme switching, custom drawer, and asset management

RSU Enrollment System – Java Desktop App

Tech Stack: Java, OOP, UML, Eclipse

- Developed a university course enrollment system with credit validation, enrollment period control, and schedule display
- Designed system architecture using UML class diagrams, enforced business logic via method constraints
- Built a command-line interface for testing and demonstrated clean OOP design with ArrayList and encapsulation

Game Design Projects

Tech Stack: Unity / Game Engines

Mage-Slayer, E2-Escape, CuteCube — independent game projects (playable demos on YouTube)

Mage-slayer - <https://youtu.be/1j4f0VvpFHU?si=BRxzaeMLGF7sGM8C>

E2-Escape - <https://youtu.be/pUcQqyTbC00?si=m0GAZk9BbatLxgRj>

CuteCube - <https://youtu.be/b6CovqxYCHU?si=hGmJfthItoaYPaZJ>

LANGUAGES

Burmese (Native) | **English** (Proficient / Advanced) | **Thai** (Basic)

CORE COMPETENCIES

User Research & Usability Testing • Wireframing & Prototyping (Figma) Responsive & Mobile-first Design • Problem-solving & Critical Thinking • Collaboration & Teamwork • Time Management • Office Administration
